Bedtime Math.

Bedtime Math

"We inspire kids to love math so they embrace and excel at it."

Who We Are

Bedtime Math is a nonprofit operating foundation funded by private donations. These resources, along with all proceeds from founder Laura Overdeck's Bedtime Math book series, come back into the foundation to fund our free programs.

Parents know to read to their kids at night, but what about math? Our goal is simpler to make math a fun part of kids' everyday lives, as beloved as the bedtime story.

Bedtime Math sends parents a fun, new math problem every day. Targeted for kids ages 3-9, it begins with a short, fun set-up story, followed by three math problems at three levels of challenge.

Kids learn only when they want to, so math needs to be fun and engaging.

Right now, adults are math-anxious, and kids are multiple grade levels behind. Let's tackle both, and help our kids catch up on their math savvy outside of school."
