

# OverDrive®

is upgrading to

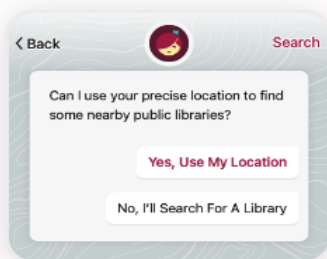

**In early 2023, the OverDrive app will be discontinued. Readers will need to switch to Libby before the end of 2022.**

Download Libby or visit [libbyapp.com](https://libbyapp.com) to get started.

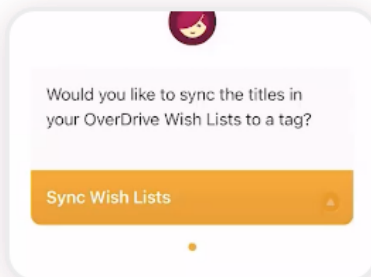

## 1. Find your library and sign in

When you open Libby, you'll be guided through simple setup steps to find your library and sign in with your card.

## 2. Sync your OverDrive wish list

Once you're signed in, you'll be prompted to sync your OverDrive wish list from an in-app notification. Once you add your library cards to Libby, all your loans and holds will be waiting on your Shelf.

**That's it! You're reading to start reading & listening!**

Visit [help.libbyapp.com](https://help.libbyapp.com) for FAQs, how-to articles, and videos about using the app.

Features unique to Libby include:

- **A central Shelf:** Loans and holds from all your libraries are automatically added to your Shelf.
- **Improvements to navigating book series:** Easily find the next book in a series from search results, title details, and your Shelf. Libby makes it easier than ever to discover books in a series.
- **Unlimited tags:** Create custom tags to categorize books however you'd like, and use Libby's smart tags to track what you've borrowed or get notified about new issues of your favorite magazines.
- **More notification options:** Get push notifications on your mobile device (or emails from libbyapp.com) for available holds, expiring loans, and more.
- **Access to more content with Libby Extras\*:** Get access to extra learning or entertainment resources (like Kanopy, Craftsy, Universal Class, and more) from your library.

\*At participating libraries only
